WE ALSO...

MAINTAIN

Our planned maintenance programme is designed to forewarn as far as practicably possible when components need replacing, by reporting to you parts requiring renewal together with current code of practice Health and Safety enhancements.

MODIFY

For older lifts that would benefit from an aesthetic make over, we offer a first class modernisation and refurbishment design service. We can totally replace or rejuvenate the existing lift car and entrances, using state of the art replacement equipment and contemporary designs to make your lift look new again.
